PROFESSIONAL SUMMARY

A highly motivated and detail-oriented Computer Engineering graduate with strong foundations in Java development, web technologies, and SQL concepts. Eager to contribute to innovative IT projects while enhancing my technical expertise in a collaborative and growth-oriented work environment.

EDUCATION

Bachelor of Engineering – Information

Technology Shivajirao College of Engineering,
Mumbai University CGPA: 8.02

Diploma in Computer Engineering

Jai Hind College of Engineering, Kuran
(MSBTE)
GPA: 87.14%

Higher Secondary Certificate (HSC)

G.R.P. Sabnis Vidyalaya Narayangaon
GPA: 60.00

Secondary School Certificate (SSC)

Hindamata Vidyalaya Vadgaon (Kandali)
GPA: 86.40%

TECHNICAL SKILLS

- **Backend Programming & Frameworks:** Java, Spring Boot, Hibernate, Microservices Architecture, RESTful API Development, JSON Processing, Web Programming
- **Frontend Development:** HTML, CSS, Bootstrap, JavaScript, React
- **Server Technologies:** Apache Tomcat
- **Database Management:** MySQL, MS-SQL, Database Management Software
- **Version Control:** Git, GitHub
- **Development Practices:** Coding, Debugging, Java Debugging
- **IDEs & Tools:** IntelliJ IDEA, Eclipse, Spring Tool Suite (STS), Visual Studio Code, MySQL, PyCharm

SOFT SKILLS

- Problem-solving and logical thinking
 - Effective communication
 - Team collaboration
 - Adaptability and continuous learning
 - Time management
 - Attention to detail
 - Positive attitude and perseverance
 - Critical thinking and decision-making
-

CERTIFICATION

Post Graduate Certification in Java Full Stack Development - Associate (EduBridge Learning Pvt. Ltd.)

PROJECTS

1. Task Management System

- Developed a full-stack task management application to streamline task creation, assignment, and tracking for users.
- Built using **React** for the frontend and **Spring Boot with SQL** for the backend.
- Implemented CRUD operations for tasks, including title, description, start date, due date, priority, and status.
- Enabled role-based access: Admins can manage all tasks; users can create and track personal tasks.
- Implement E-mail notification using E-mail JS and authentication filter for tasks.
- Integrated real-time form validation and responsive UI for better user experience.
- Ensured persistent data storage and efficient retrieval using RESTful APIs and optimized SQL queries.
- Focused on modular, maintainable code and clear separation of concerns across components and services.
- Technologies Used: React, Spring Boot, SQL.

2. SAB Insurance

- Develop insurance site for providing various types of insurance to the user.
- Use React to create responsive web portal.
- Use Java Script to handle backend operation.
- Use SQL to handle and store data.
- Technologies used- HTML, CSS, Java Script, React, SQL, Git.

3. Code Collab – Flutter based code editor

- Develop a code editor that can support HTML and CSS.
- Implemented logins to particular user.
- Used Firebase to store the data.
- Implemented functions to highlight text in code editor. The code editor having separate containers for different languages.

- Implemented the practice code questionnaires to provide and check knowledge of the user by itself.
- Technologies used- HTML, CSS, Flutter, Firebase.

INTERNSHIP

Odd Creatives & Management — *Full Stack Developer Intern* ***May 2025 – Present***

- Developed and maintained full-stack web applications using React (frontend), Spring Boot (backend), and MySQL (database).
- Built responsive UI components and dashboards using React.js and integrated them with RESTful APIs.
- Designed and implemented backend services, business logic, and database schemas for scalable application modules.
- Collaborated with the design and product team to translate business requirements into technical features.
- Utilized tools like Postman, Git, and Maven for testing, version control, and build automation.
- Integrated a **Python-based Face Recognition System** using **DeepFace** and Flask, connected via REST API for real-time employee attendance tracking.
- Implemented cross-service communication between Java and Python microservices using **JSON payloads** and **HTTP requests**.

INTERESTS

- Developing software solutions
- Exploring new technologies.
- Working on real-world IT projects
- Continuous technical learning

PERSONAL DETAILS

- **Name:** Prathamesh Pramod Bhor
- **Gender:** Male
- **Date of Birth:** 27 June 2001
- **Nationality:** Indian
- **Father's Name:** Pramod Bhor
- **Postal Address:** Junnar Pune, Maharashtra
- **Languages Known:** English, Hindi, Marathi

DECLARATION

I hereby declare that the above-mentioned information is true and correct and I bear the responsibility for the correctness of the above-mentioned particulars.

LOCATION: Pune

DATE: 15 August 2025

**Mr. PRATHAMESH PRAMOD
BHOR**
